

ADRIANA KANAREK - NEWSOME HS

This evening's second Roundtable Scholarship winner is currently a wolf. She proudly says she is a Newsome High School Wolf.

Adriana Kanarek stated that because of her volunteering, she has realized how much demonstrating kindness to people results in lifting up their spirits. She has accumulated over 430 service hours working with A Kid's Place and Trick or Treat Street. However, distributing supplies to victims of Hurricane Irma, had the most impact to her. Adriana was humbled realizing how many people were impacted by the volunteers. She wants to stay involved with food and toy drives, soup kitchens, and distributing supplies to teachers as the new school year begins.

Courses in macro economics, AP History, AP Statistics, and Spanish keep her mind sharp. One of her teachers mentioned that she'd known Adriana since the Fourth Grade. This lady became a teacher and was impressed with Adriana's initiative when she took the AP Chemistry class. Not everything is quite so disciplined though. She does make time for some fun in school as a member of the Chorus.

Adriana has been a member of NHS, Mu Alpha Theta (Math Nerds), and Rho Kappa. Sports have also been a part of her life, specifically participating in Varsity Cross Country and Varsity Track events.

Students are seeing the large picture of life. Listing so many accomplishments for these young women is encouraging for the our country's future. Once again, it is my HONOR to present Adriana Kanarek with a 2019 Community Roundtable scholarship.

Adriana, congratulations! Here is your check for \$1,000 toward your college education. You too will ride as our guest in the Fourth of July parade.
